## **AVENTURA TO REVEAL FACE RECOGNITION AT ISC WEST SHOW IN LAS VEGAS**

**Hauppauge, New York, April 2, 2015—Aventura Technologies, Inc.**, the industry leader in advanced security and safety management technology is launching its new Voltus™ Face Recognition software at the ISC West show at the Sands Expo in Las Vegas, Nevada two weeks from today. The software analytics product joins Aventura's Licentia™ License Plate Recognition and Cerebrus™ Video Content Analytics packages in taking center stage at Aventura's two show booths.

Aventura's Director of Product Development, Michael Wangner, will be attending the show to demonstrate the value proposition these software tools offer. "Video analytics solve two major problems," Mr. Wangner said, "First, they're always watching, never get tired, never get bored, and never get distracted. Second, they can watch multiple channels of video simultaneously. Most importantly, they can make database comparisons and return matches within seconds. This is an entirely new ability for CCTV systems, possible only with computer assistance."

The Voltus™ product brings several new features to the face recognition space. It offers multiple list management with user-definable fields, for blacklist, whitelist, or other deployment-specific use cases. A "Dynamic List" feature is also included. This provides the ability to catalog all unknown faces for a specified time period and track movements across multiple cameras for suspicious behavior. Response time of the software depends largely on the size of the comparison list, but is expected to be under 10 seconds for most customers.

"We're very excited about this platform because this technology used to be science fiction, and now we're bringing it to the masses. It's powerful, it's affordable, it's something every security administrator will consider for their operation at some point in the very near future," Mr. Wangner stated.

The ISC West show will take place April 15-17 at the Sands Expo in Las Vegas, Nevada. Admission can be arranged through the ISC West web page or an Aventura sales representative.

### **About Aventura Technologies, Inc.**

Organized more than a decade ago and headquartered in New York, with offices around the globe, Aventura is an industry leading designer, developer and manufacturer of "off-the-shelf" and custom-designed enterprise-level video hardware and software solutions for civilian and government.

Aventura's offerings consist of hardware, software, solutions and services:

**Hardware:** DVR, NVR, VMS, Encoders, Decoders, Switchers, VideoWalls, IP/Analog/Thermal/Laser Cameras, Storage, Fiber and Transmission.

**Software:** DVR/NVR, CMS/PSIM/C2, Analytics, Communications, GIS/Mapping, Workflow, Mass Notification and Emergency Management.

**Solutions:** Enterprise-Class End-To-End Security/Communications Infrastructure Management System, Rapid Field Deployable Video Surveillance/Management System, Urban Surveillance Observation System, Long-Range Intelligent Hybrid Camera System, Integrated Onboard Vehicle Audio/Video System, Tactical Covert Video & Transmission.

**Services:** Advanced Security/Communications System Design, Architectural and Engineering, Strategic Planning and Risk Assessment, Program and Project Management, Audits and Assessments, Training and Installation Support and Life Cycle and Logistics Support

Aventura is an “*end-to-end*” solution provider and works with clients and channel partners from the design/consulting phase through implementation, integration and training.

*This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on the current expectations of the management of Aventura, Inc. (the “Company”) only, and are subject to a number of risk factors and uncertainties, including but not limited to changes in technology and market requirements, decline in demand for the Company’s products, inability to timely develop and introduce new technologies, products and applications, difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel, loss of market share, pressure on pricing resulting from competition, and inability to maintain certain marketing and distribution arrangements, which could cause the actual results or performance of the Company to differ materially from those described therein. All statements contained herein that are clearly historical in nature are forward-looking and the words “anticipate,” “believe,” “expect,” “estimate,” “project,” and similar expressions are generally intended to identify forward-looking statements. The Company undertakes no obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.*
