AVENTURA ANNOUNCES NEW ESR-SERIES ENTERPRISE STORAGE SERVERS

Hauppauge, New York, March 3, 2015—**Aventura Technologies, Inc.**, the industry leader in advanced security and safety management technology has revealed the technical specifications for the new storage product recently unveiled at Intersec, Dubai. The storage unit has a 4U form factor and offers up to 360 TB in surveillance-grade storage.

“Datacenters cost money,” said Michael Wangner, Aventura’s Director of Product Development, “360 TB per 4U is the kind of storage density that reduces the footprint, and therefore cost of ownership.”

The security industry has rapidly shifted from analog to IP-based megapixel cameras in the past several years, causing a dramatic increase in storage requirements. Aventura’s ESR-Series line of storage servers is designed to cater directly to customers looking to make the switch to the new technology.

“For a security administrator with one hundred, two megapixel cameras, a single ESR unit can represent over a month of retention for their entire system,” Mr. Wangner said, “Previous storage servers held less than a quarter of the data, but required almost the same amount of space.”

Like the SSR-Series storage product, the ESR-Series can be configured with RAID levels 1,5,6,10, and 50. Hard drives are hot-swappable, but load from the top of the unit rather than the front-loading featured in other Aventura products. The ESR chassis has room for up to 60 hard drives and ships with surveillance-grade HDD and Aventura software.

ESR-Series storage servers are available starting from 60 TB raw storage capacity, creating some crossover with the SSR-Series, which has been increased to a maximum raw storage capacity of 96 TB with the recent release of 6 TB surveillance-grade hard drives. Both lines of storage servers can function in either NAS or SAN configurations.

About Aventura Technologies, Inc.

Organized more than a decade ago and headquartered in New York, with offices around the globe, Aventura is an industry leading designer, developer and manufacturer of “off-the-shelf” and custom-designed enterprise-level video hardware and software solutions for civilian and government.

Aventura’s offerings consist of hardware, software, solutions and services:

Hardware: DVR, NVR, VMS, Encoders, Decoders, Switchers, VideoWalls, IP/Analog/Thermal/Laser Cameras, Storage, Fiber and Transmission.

Software: DVR/NVR, CMS/PSIM/C2, Analytics, Communications, GIS/Mapping, Workflow, Mass Notification and Emergency Management.

Solutions: Enterprise-Class End-To-End Security/Communications Infrastructure Management System, Rapid Field Deployable Video Surveillance/Management System, Urban Surveillance Observation System, Long-Range Intelligent Hybrid Camera System, Integrated Onboard Vehicle Audio/Video System, Tactical Covert Video & Transmission.

Services: Advanced Security/Communications System Design, Architectural and Engineering, Strategic Planning and Risk Assessment, Program and Project Management, Audits and Assessments, Training and Installation Support and Life Cycle and Logistics Support

Aventura is an “*end-to-end*” solution provider and works with clients and channel partners from the design/consulting phase through implementation, integration and training.

This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on the current expectations of the management of Aventura, Inc. (the “Company”) only, and are subject to a number of risk factors and uncertainties, including but not limited to changes in technology and market requirements, decline in demand for the Company’s products, inability to timely develop and introduce new technologies, products and applications, difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel, loss of market share, pressure on pricing resulting from competition, and inability to maintain certain marketing and distribution arrangements, which could cause the actual results or performance of the Company to differ materially from those described therein. All statements contained herein that are clearly historical in nature are forward-looking and the words “anticipate,” “believe,” “expect,” “estimate,” “project,” and similar expressions are generally intended to identify forward-looking statements. The Company undertakes no obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.
